SUMMARY

Full Stack Web Developer with a strong focus on modern JavaScript frameworks and AI integration. Experienced in building scalable, user-centered applications and collaborating in Agile teams. Skilled at quickly adopting new technologies, solving complex problems, and delivering impactful software solutions that bridge innovation with real-world use.

CORE SKILLS

AI / Machine Learning: Ollama, HuggingFace, Prompt Engineering

Frontend: React, Redux/RTK, JavaScript, Three.js, D3, Recharts, Phaser, TailwindCSS, Bootstrap

Backend: Node.js, Express, Passport, Mongoose, MongoDB, PostgreSQL, REST, GraphQL, Socket.io

DevOps & Tools: Git, GitHub, GitLab, CI/CD, PowerShell, VS Code

Methodologies: Agile, Scrum

PROJECT HIGHLIGHTS

PandaAI | Full Stack Developer

Designed and built a user-friendly interface for AI-driven conversations powered by the Ollama API. Integrated access to multiple models (Gemma, DeepSeek, and Mistral) for flexible and dynamic interactions. Delivered a seamless front-to-back integration enabling real-time AI responses.

Real E-State | Full Stack Developer

Built a MERN-based real estate platform featuring authentication, agent portal, property CRUD, loan calculator, and messaging. Delivered a responsive, dynamic UX with TailwindCSS.

We Serve | Full Stack Developer

Developed a MERN application connecting volunteers with shelters and service opportunities. Implemented conditional rendering, authentication, and full CRUD functionality with intuitive UI design.

EXPERIENCE

PersevereNow | Goodyear, AZ

Instructor's Assistant | Jun 2023 – Aug 2025

- Co-developed new curriculum for organization-wide use.
- Debugged diverse issues across C, JavaScript, React, RTK, Axios, Node.js, Express, Passport, Socket.io, and more.
- Set up and integrated Ollama local models into full stack applications.
- Collaborated in Agile teams to build a MERN CRM system (login, dashboards, reporting, task/donation management).
- Won the organization's first hackathon with a CMS application to streamline site operations.
- Actively contributed in daily stand-ups, sprint planning, and retrospectives.

Televerde | Phoenix, AZ

Service Delivery & Campaign Systems Manager | 2015 – 2019

- Spearheaded integration of Marketo and Salesforce APIs to enhance marketing automation and CRM.
- Reduced system implementation time by 25% through process optimization and exceeding SLAs.
- Delivered KPI forecasting tools enabling sales teams to project productivity with accuracy.
- Partnered with IT teams to ensure seamless adoption of new technologies and troubleshoot complex system issues.

EDUCATION

- **Bachelor of Arts, Communication – Ashland University** (Expected Summer 2026)
- **Associates of Arts, General Studies – Ashland University** (Fall 2024)
- **Full Stack Developer Certification – PersevereNow** (June 2023)
